In the Matter of)

U S WEST's Comparably Efficient)
Interconnection Plan for)
Payphone Services)

CC Docket No. 96-128

Implementation of the Pay Telephone)
Reclassification and Compensation)
Provisions of the Telecommunications)
Act of 1996)

**AMENDMENT OF PLAN OF U S WEST, INC.
TO OFFER COMPARABLY EFFICIENT
INTERCONNECTION FOR PAYPHONE SERVICES**

U S WEST, Inc. ("U S WEST"), pursuant to the Common Carrier Bureau's ("Bureau") Memorandum Opinion and Order and its Clarification Order,¹ hereby amends its Comparably Efficient Interconnection ("CEI") Plan for Payphone Services.² Upon the effective date of this Amendment, U S WEST will delete references therein to CUSTOMNET (Outgoing Fraud Protection).

¹ In the Matter of Bell Operating Companies' Joint Petition for Waiver of Computer II Rules, Memorandum Opinion and Order, 10 FCC Rcd. 1724 (1995); In the Matter of Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, CC Docket No. 96-128, Order, DA 97-678, rel. Apr. 4, 1997 ("Order" or "Clarification Order").

² U S WEST's CEI Plan for Payphone Services was approved by the Bureau on Apr. 15, 1997. See In the Matter of U S WEST's Comparably Efficient Interconnection Plan for Payphone Services, Implementation of the Pay Telephone Reclassification and Compensation Provisions of the Telecommunications Act of 1996, CC Docket No. 96-128, Order, DA 97-796, rel. Apr. 15, 1997.

No. of Copies rec'd
List A B C D E

024

On Monday, April 14, 1997 U S WEST Communications, Inc., under authority of Special Permission No. 97-125 of the Bureau, removed CUSTOMNET from its payphone compliance tariff filing (Transmittal No. 823). This was done because CUSTOMNET does not fit the criteria in the Bureau's Clarifying Order. In that Order the Bureau clarified that the requirement to file federal tariffs applies only to payphone-specific, network-based, unbundled features and functions provided to others or taken by a LEC's operations, and did not include in this federal tariff requirement features and functions that are generally available to all local exchange customers, such as touchtone and various custom calling features.³

CUSTOMNET falls in the latter category because it is a feature generally available to all U S WEST end-user customers and is not payphone-specific. Although utilized by U S WEST's payphone operation in its provision of payphone service, CUSTOMNET is also used by numerous end-user customers other than payphone service providers. Based on March 1997 data, more than 70% of CUSTOMNET lines are residential and business lines, not payphone lines. CUSTOMNET, in these respects is very similar to touchtone service. Consequently, U S WEST need not add CUSTOMNET to its federal tariff to be in compliance with the tariff requirements of the Clarification Order. Thus CUSTOMNET was removed from that filing as described above.

In order to be consistent with its corrected Federal Tariff and accurate in its representations in its CEI Payphone Plan, U S WEST respectfully submits this

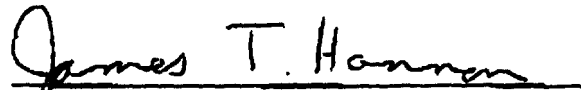

³ Clarification Order ¶ 18.

request to delete the references to CUSTOMNET in its CEI Payphone Plan, specifically on page 16 of the CEI Plan and in Exhibits A and B. Attached to this Amendment are corrected copies of page 16 and Exhibits A and B. Please replace the previous versions of these pages with the versions that are attached to this Amendment.

Respectfully submitted,

U S WEST, INC.

with the appropriate functionalities. An illustrative tariff is provided in Exhibit B in lieu of the respective tariffs, catalogs, or price lists.

Basic PAL Service is provided pursuant to state tariffs, catalogs, or price lists in U S WEST's 14 states. Sample tariffs/catalogs are provided in Exhibit B.

Pursuant to state orders, Single Party Flat Rate Service - Business is tarified in Iowa and Minnesota for use with payphone services. A sample tariff is provided in Exhibit B.

Answer Supervision - Line Side, Blocking for 10XXX1+/10XXX011+, and Billed Number Screening are features associated with Basic PAL Service that are unbundled in some of U S WEST's 14 states. Because these basic features are unbundled, federal tariffs for these features will be filed with the Commission by January 15, 1997. An illustrative federal tariff is provided in Exhibit B. Exhibit B also provides sample state tariffs, catalogs, and price lists for these basic features.

V. CONCLUSION

U S WEST has demonstrated that its provision and use of basic payphone services comply with all Commission-mandated CEI requirements and serve the public interest. As a result, U S WEST requests approval of this CEI Plan for

EXHIBIT A

U S WEST Basic Services and Features

Basic Services

Smart Public Access Line (Smart PAL)

A voice grade circuit switched line provides a payphone service provider with a line side connection to the circuit switched network. This line side connection could include alternative types of network connection, address and supervisory in-band or out-of-band signaling. In addition, the line determines when a coin should be collected or returned and, through Automated Coin Toll Service (ACTS), rates all coin paid long distance calls.

Basic Public Access Line (Basic PAL)

A voice grade circuit switched line provides a payphone service provider with a line side connection to the circuit switched network. This line side connection could include alternative types of network connection, address and supervisory in-band or out-of-band signaling. The pay telephone set contains micro processors which perform all the required coin control functions and coin sent paid rating.

Single Party Flat Rate - Business (1FB) (Only Iowa and Minnesota as permitted by State Regulatory Commissions)

A voice grade circuit switched line provides a payphone service provider with a line side connection to the circuit switched network. This line side connection could include alternative types of network connection, address and supervisory in-band or out-of-band signaling.

Basic Features

Answer Supervision - Line Side

Passes the network answer supervision signal to the receiving payphone.

Blocking for 10XXX1+/10XXX011+

Blocks 10XXX1+/10XXX011+ calls while allowing 10XXX0 calls.

International Blocking

Blocks 011+/10XXX011+ calls.

Billed Number Screening (Incoming Fraud Protection)

An indicator to the operator that collect or third number billed calls cannot be billed to the line.

5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATION SERVICE - COIN AND COINLESS

5.5.7 PUBLIC ACCESS LINE SERVICE

A. Description

1. Public Access Line (PAL) Service is provided for use with customer-owned pay telephones at locations accessible to the public, subject to the availability of existing CO facilities and special operator equipped locations, as appropriate, e.g., TOPS.

Smart PAL Service

Smart PAL Service is a flat or message, two-way or outgoing line which utilizes central office coin control features. This service provides:

- Coin signaling, including coin collect and coin return.
- Company completed and carried local and intraLATA toll messages, both sent paid and non-sent paid.
- Company operator services/systems for all 0-, 0+ and 1+ intraLATA toll calls, and 0+ local calls.
- Routing to the presubscribed carrier for all 0+ and 00- interLATA calls.
- Pay-per-call blocking (e.g. 900 and 976).
- Incoming and outgoing call screening.
- Access to:
 - Directory assistance,
 - 911 emergency code,
 - All interexchange carriers,
 - 800/800-type service and 950 telephone numbers,
 - Company repair service.

Issued: {

Effective: }

5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATION SERVICE - COIN AND COINLESS

5.5.7 PUBLIC ACCESS LINE SERVICE (Cont'd)

B. Terms and Conditions

1. For customer-owned pay telephones with unrestricted access to the local network, PAL Service will be provided on a flat, message or measured rate basis.
2. PAL is the only service offered for use with customer-owned pay telephones. In the event it becomes apparent that a customer-owned pay telephone is attached to a line not authorized for such use, the Company reserves the right to disconnect that customer's service. However, should the customer so request, the Company will install a Public Access Line at the rates and charges specified herein.
3. Two-way PAL Service rates and charges include one business directory listing. Additional listings will be furnished at rates and charges specified in 5.7.
4. PAL Service is not represented as adapted for data service. PAL Service contemplates the provision of satisfactory voice transmission only.
5. Joint User Service is not available with PAL Service.
6. Calls to directory assistance, 911, and telephone repair service are not subject to measured PAL usage charges.

Effective: }

5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATION SERVICE - COIN AND COINLESS

5.5.7 PUBLIC ACCESS LINE SERVICE

B. Terms and Conditions (Cont'd)

7. Extension service is allowed.
8. Terms, conditions, rates and charges as described elsewhere in this Tariff apply as appropriate.
9. Changing to or from Basic and Smart PAL Service may require a telephone number change.
10. Optional toll calling plans, specified in 6.3 may be available to PAL Service customers. See individual tariff section for restrictions.
11. Loop Diversity and/or Avoidance defined in the Private Line Transport Services Tariff are available with PAL Service.
 - a. Customers subscribing to Loop Diversity must also have additional facilities for the diverse route.
 - b. Customers subscribing to Avoidance may also be required to pay Foreign Central Office charges, as defined in Section 5 of the Private Line Transport Services Tariff.
12. The Company is not liable for shortages of coins deposited and/or collected from the pay telephones used on PAL Service.
13. The Company is not liable for end-user fraud associated with failure of the customer's pay telephones to perform correctly.
14. The following terms and conditions are specific to Smart PAL Service:
 - a. Separate lines are used for each pay telephone instrument installed. Off premises extensions are not permitted.
 - b. Until other carriers can provide sent-paid InterLATA coin service, all direct dialed InterLATA and International (1+, 10XXX+1, and 011+) calls will be forwarded to AT&T for coin rating and completion.
 - c. The customer must insure that the telephone sets used with Smart PAL Service are capable of rating sent-paid local calls and are compatible with, and cause no harm to the Company's network.

Issued: {

Effective: }

5. EXCHANGE SERVICES

5.5 PUBLIC COMMUNICATION SERVICE - COIN AND COINLESS

5.5.7 PUBLIC ACCESS LINE SERVICE (Cont'd)

C. Responsibility of the Customer

1. The PAL customer will be responsible for:

- a. The installation, operation, and maintenance of any customer-owned pay telephone used in connection with this service.
- b. The rates and charges incurred on the Public Access Line. Toll adjustments will not be allowed on the PAL account, unless due to Company error.
- c. The refund of coins when lost or collected in error by the customer-owned pay telephone.
- d. The payment of Maintenance of Service Charges for visits made by a Company employee to the customer's premises when a service difficulty or trouble report results from the customer-owned pay telephone.

D. Rates and Charges

1. Smart Public Access Lines will be provided at the following rates and charges:

	USOC	NONRECURRING CHARGE	MONTHLY RATE
• Flat Usage PAL Service			
- Outgoing only, per line	5FO	\$\$.\$\$	\$\$.\$\$
- Two-way, per line	5FP	\$\$.\$\$	\$\$.\$\$
• Message Usage PAL Service			
- Outgoing only, per line	14C	\$\$.\$\$	\$\$.\$\$
- Two-way, per line	1NH	\$\$.\$\$	\$\$.\$\$
• Monthly Usage Rates			
			RATE PER CALL
- Message Usage Rate			\$x.xx

2. The following nonrecurring charge for changes applies:

- To each line when changing the type of service (either measured or flat) or from one PAL line to another;
- To telephone number changes, at customer's request;
- For temporary transfer of calls, at customer's request.

	NONRECURRING CHARGE
• Per activity, per CO access line changed	\$X.XX

ILLUSTRATIVE

13. ADDITIONAL ENGINEERING, ADDITIONAL LABOR AND MISCELLANEOUS SERVICES

13.3 MISCELLANEOUS SERVICES (Cont'd)

13.3.19 BASIC PUBLIC ACCESS LINE (PAL) OPTIONAL FEATURES

A. Answer Supervision - Lineside

This option provides the capability to deliver "off-hook" supervisory signals from the terminating central office switch to a lineside interface at the originating central office switch. These signals indicate when the called station has answered an incoming call. Answer Supervision will only be provided where technically feasible with Basic PAL Service offered in the Company's general or local exchange tariffs. Rates are set forth in 13.4.3., following.

B. Billed Number Screening

Billed Number Screening (BNS) prohibits collect and/or third number billing calls from being charged to BNS equipped numbers. Callers attempting to place a collect or third number billing calls using a BNS number for billing will be advised by an operator that such billing is unauthorized and the call will not be completed until other payment or billing arrangements are made. BNS is subject to the availability of facilities with Basic PAL Service offered in the Company's general or local exchange tariffs. Collect and/or third number billed calls originating from locations that do not have screening capabilities may not be capable of being intercepted and denied and will be billed, e.g., International calls and calls that do not go through the Billing Validation Authority (BVA) data base. Provision of BNS does not alleviate customer responsibility for completed toll calls. This service is available to customers at no charge.

5.5 PUBLIC COMMUNICATION SERVICE - COIN AND COINLESS (Cont'd)

5.5.7 PUBLIC ACCESS LINE (PAL) SERVICE

A. Description

1. Public Access Line (PAL) Service is provided for use with customer-owned coin/coinless telephones at locations accessible to the public, subject to the availability of existing CO facilities and special operator equipped locations, as appropriate, e.g., TSPS. Rates and charges include touch-tone.
2. The use of "coinless" telephone in this Tariff refers to telephones without a coin-collecting device. This type of telephone is used to provide an optional billing arrangement on originating calls for third number billed, collect and calling card calls.
3. Coin collection and/or return for Public Access Lines is controlled by the customer-owned coin telephones.
4. Six types of Public Access Lines are available subject to the terms and conditions specified in B., following.

a. Measured Full Resale PAL Service

Measured Full Resale PAL Service is a service for which a monthly rate is billed to the customer. In addition to the monthly rate, usage charges specified herein will apply to all outgoing calls completed on a local basis. This service provides:

- Access to the local network;
- Free calls to the 911 emergency code;
- Direct dialed toll calling.
